Quality Built in the U.S.A.

CRL Manufacturing is located in Vernon, California, just five minutes from the corporate headquarters of C.R. Laurence Company and ten minutes from downtown Los Angeles. In our 600,000 combined square foot facilities we build our automotive products under the most strict standards. CRL Manufacturing is a supplier of several Original Equipment Manufacturers, and many of the glass industry's major distributors.

We use progressive and certified ISO9001:2008 manufacturing processes to ensure that we give every product our full attention to detail. Being an ISO9001 Certified company reflects the commitment of our employees. That's your assurance that when you select a product made by CRL Manufacturing you have made the best possible choice.

ISO 9001 Design • Engineering • Quality

Ask for Them by Name

The C.R. Laurence brand name means quality in the Automotive Window business. That's why so many major glass distributors, van converters, and installation facilities nationwide offer C.R. Laurence sliders, sunroofs, and van conversion windows to their customers. Our customers know that when they install a CRL product it's going to last the life of their customer's vehicle. They know that the installation will be fast and easy, reducing labor expense and their customer's waiting time. They know that the quality material and workmanship put into a CRL product virtually guarantees there won't be any "call-backs" or complaints to deal with. Finally, businesses know that the advanced design and styling techniques used by CRL has created a window they can be proud to install, and that their customers will find pleasing to the eye. They know all this because the C.R. Laurence name is on the product, and it represents quality throughout. So when it's time to choose a slider, sunroof or van window, ask for the brand name that means something in this industry, C.R. Laurence.
